OBJECTIVE

Sophomore ICAM student at UC San Diego with a foundation in architectural drawing, design communication, and hands-on fabrication. Seeking a design-focused internship to apply CAD, 3D modeling, and creative problem-solving skills in a professional environment.

EDUCATION

B.S. Interdisciplinary Computing and the Arts (ICAM)

Expected 2027

University of California, San Diego (UCSD) · La Jolla, CA · GPA: 3.596

TECHNICAL SKILLS

Design & CAD: AutoCAD, Rhino 3D, Revit (BIM), SolidWorks

Adobe Creative Suite: Photoshop, Lightroom, InDesign, Premiere Pro

Fabrication & Drafting: Architectural drafting, woodworking, wood carving, hand drawing

RELEVANT COURSEWORK

Graphical Communication for Engineering Design · Design Communication · Introduction to Art-Making: 2-D Practices · First-Year Seminar: Architecture and Design · Introduction to Global Architecture · Introduction to Real Estate & Development · Design of Everyday Things

EXPERIENCE

Flooring Renovation Project | Residential Construction

2026 – Present

- Leading interior hardwood floor remodel across a full two-story residence, including demolition, layout planning, and installation
- Applying knowledge of structural surfaces, material selection, and construction sequencing in a real-world setting

Independent Carpentry | Commissioned Projects

2018 – Present

- Designed and built a freestanding indoor bike rack engineered to hold 5 bicycles upright
- Fabricated a street-facing mailbox structure compliant with HOA guidelines, involving site measurement and material specification

Job Shadowing | Syska Hennessy Group & Glumac — CA

- Gained exposure to MEP engineering and sustainability consulting processes across live project environments at two leading California firms

Freelance Art & Illustration Contributor | Independent

2020 – Present

- Created original artwork and design concepts for a wellness-focused publication in development

AWARDS & RECOGNITION

- Kiwanis Club of Mission Viejo — Distinguished Achievement in Engineering, 2021–2022
- Diablo Excellence Award — Career Technical Education & Engineering II, 2022
- SVUSD CTE Pathway Award — Engineering Design Pathway (4-year completion)
